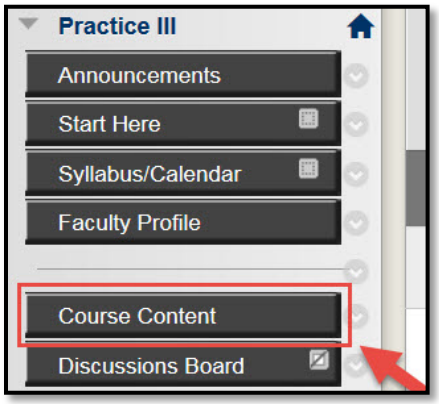
Blackboard for Employees

Aligning Test Questions

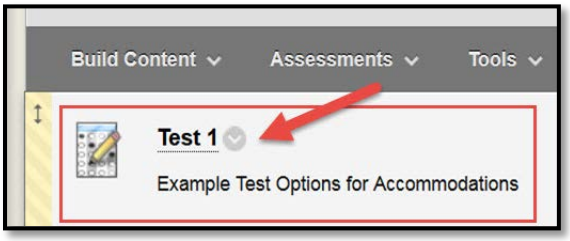
This document describes how to add alignments to test questions in a Blackboard test.

Instructions

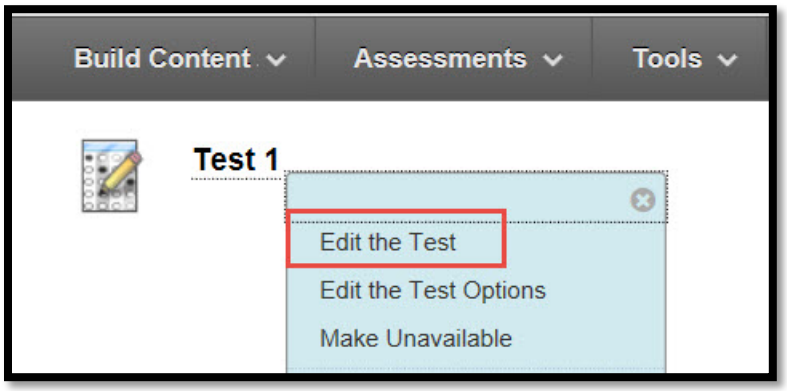
1. From within your Blackboard Course Site, go the **Content Area**.



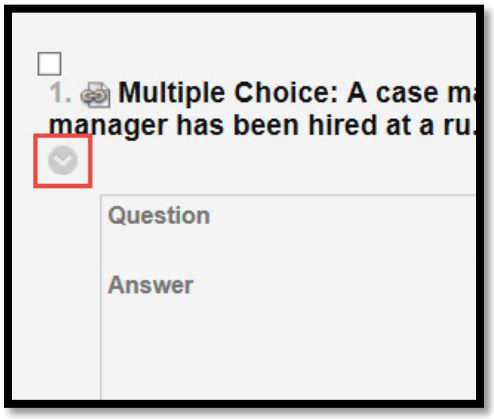
2. Hover over the deployed test requiring adjustments and click the **down chevron** to access the management menu.



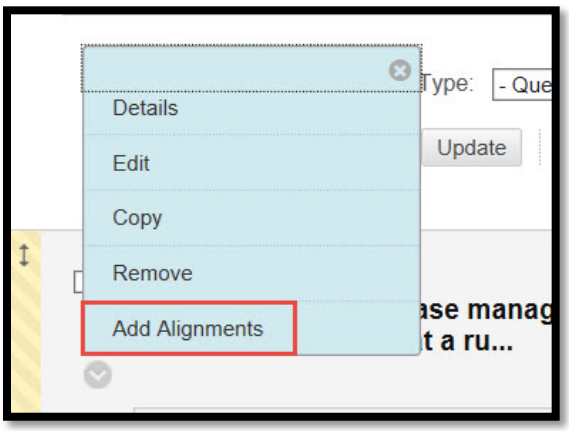
3. Choose **Edit the Test**.



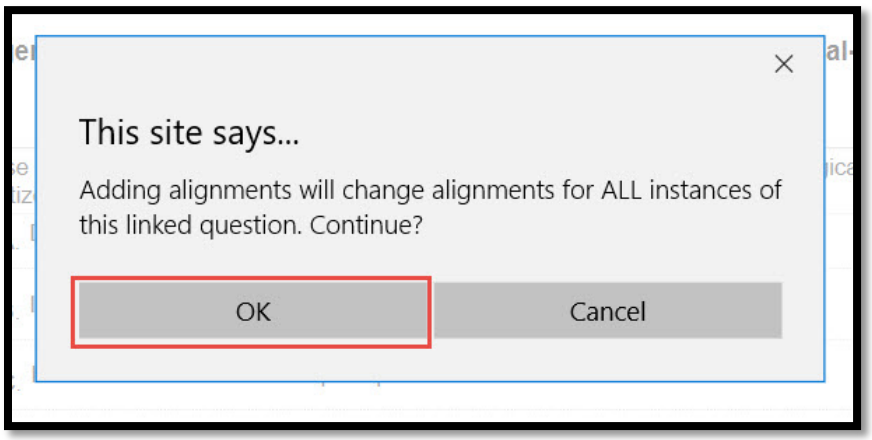
4. On the new page, locate the preferred question and click the **down chevron** to reveal the drop-down menu.



5. After the drop-down appears, select **Add Alignments**.

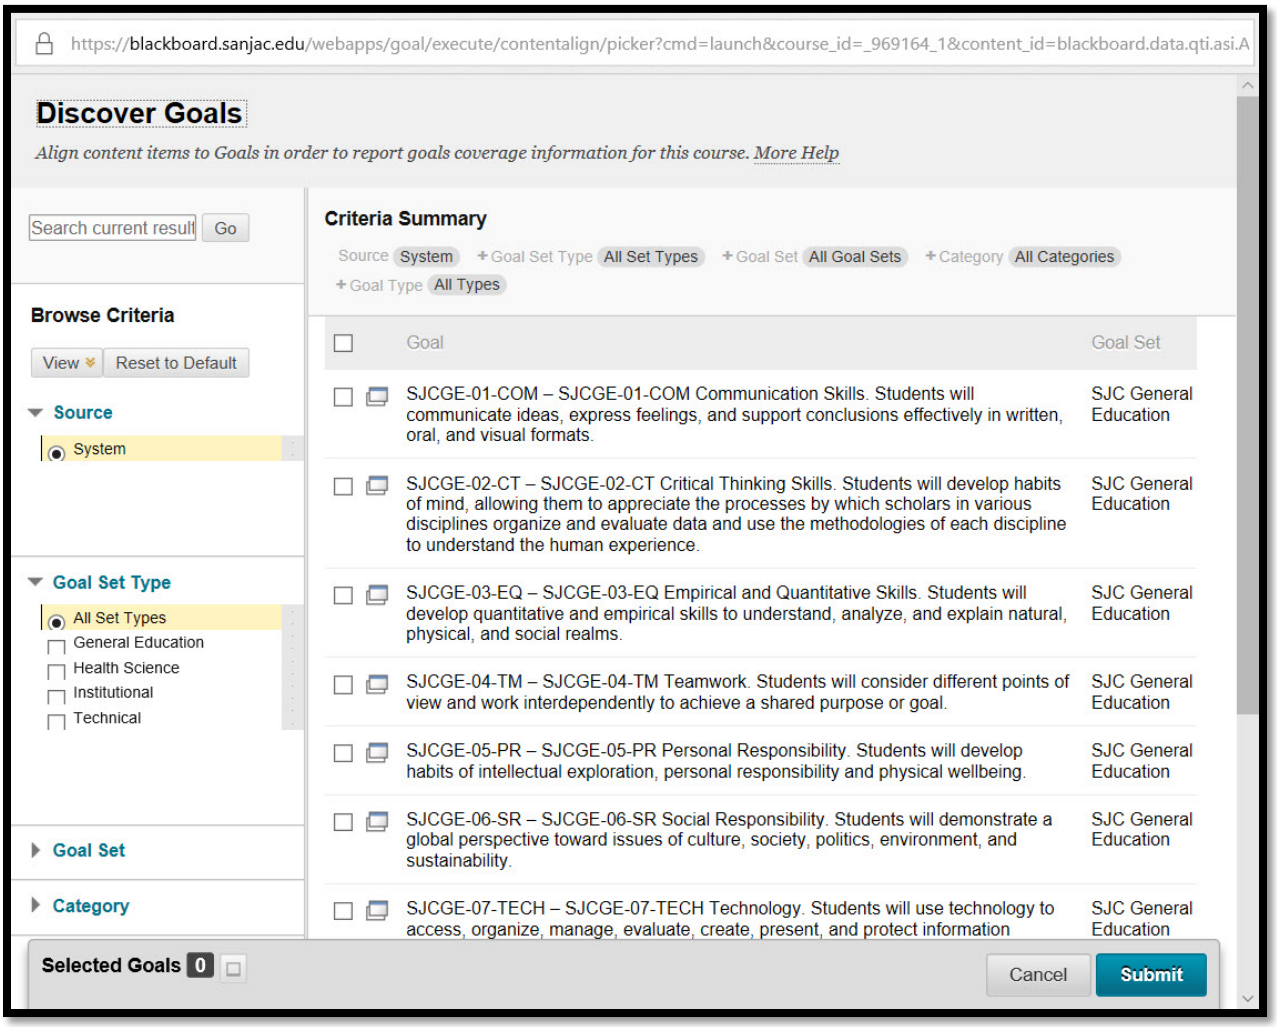


NOTE: If the question is linked (SEE: Creating a Test Using Find Questions) a notice will appear. Click **ok** to continue.



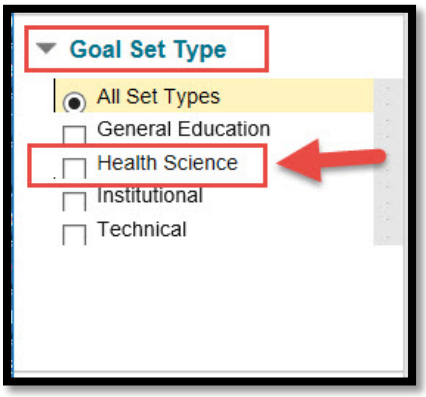
SAN JACINTO COLLEGE

6. A new window will appear.

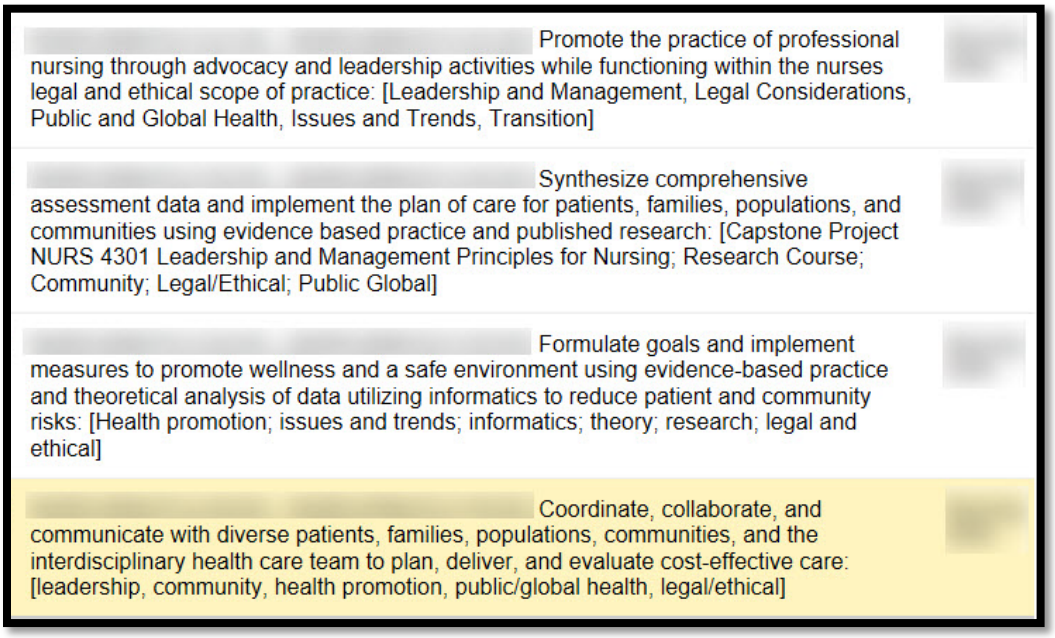


SAN JACINTO COLLEGE

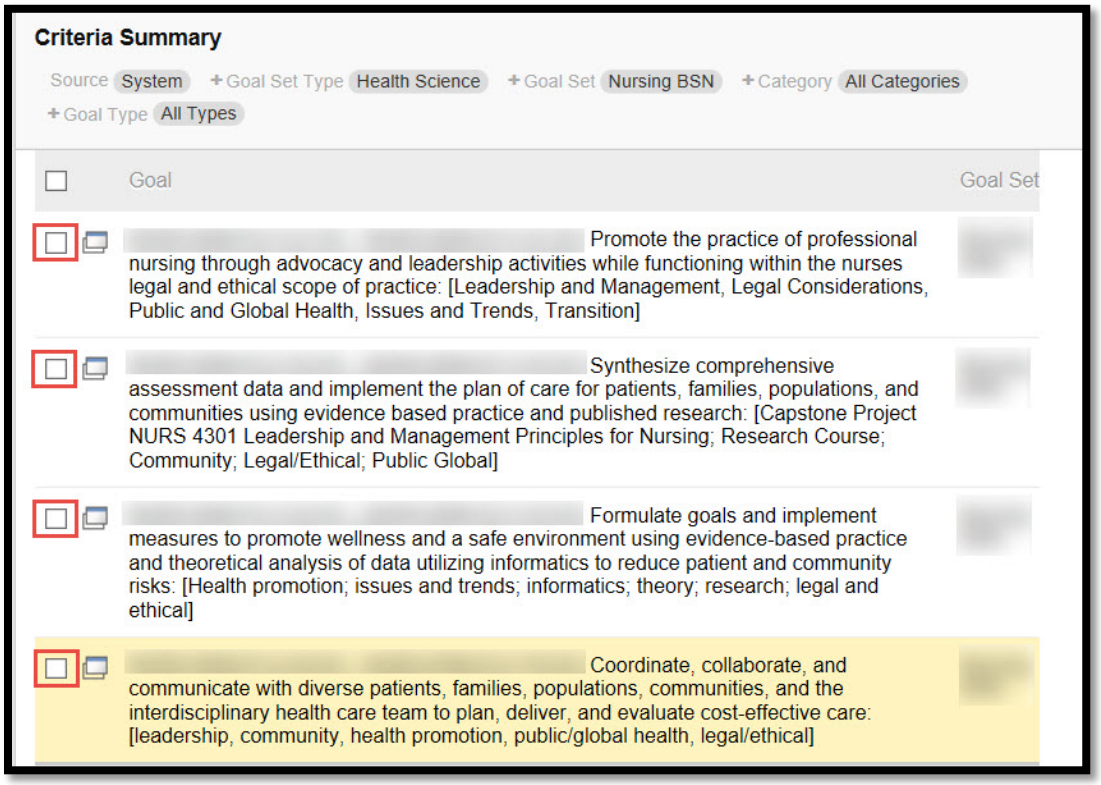
7. In the new window, locate the **Goal Set Type Menu** to select the **Health Science** goal set.

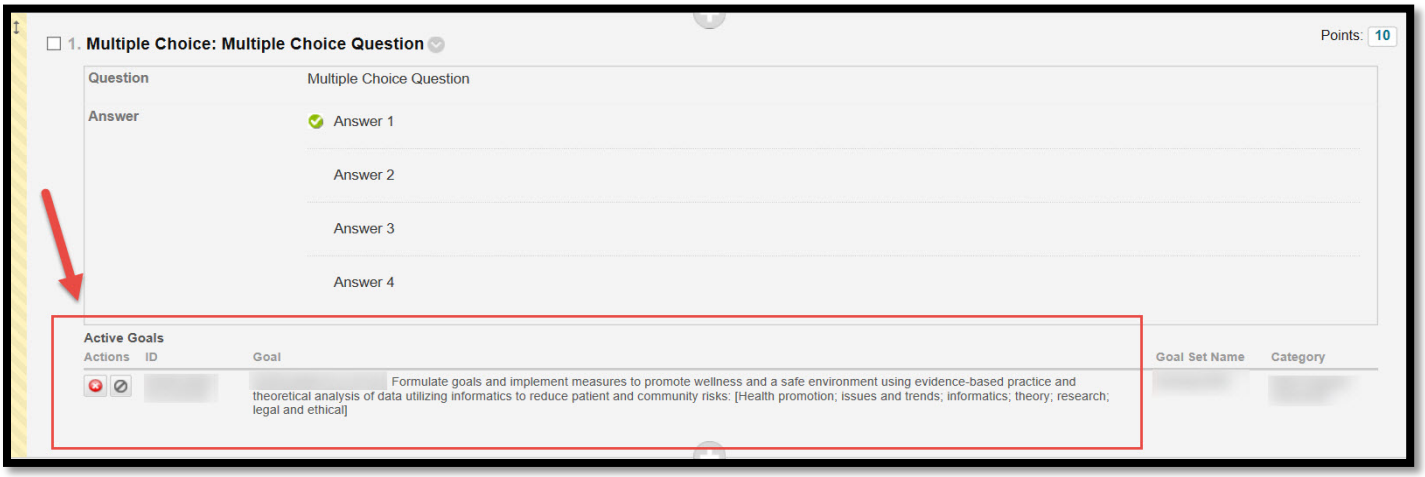


8. After the selection, a list of outcomes will appear in the reading plane.



9. Use the **checkboxes** to select the ***outcome(s)*** that best aligns to the test question.



10. Then click **submit**.


11. The alignment will appear under the test question.
