Institutional Information System (IIS)
Logging in to IIS

For college employees with a need and permission to access established college data reports, this document describes how to access and login to the Institutional Information System (IIS).
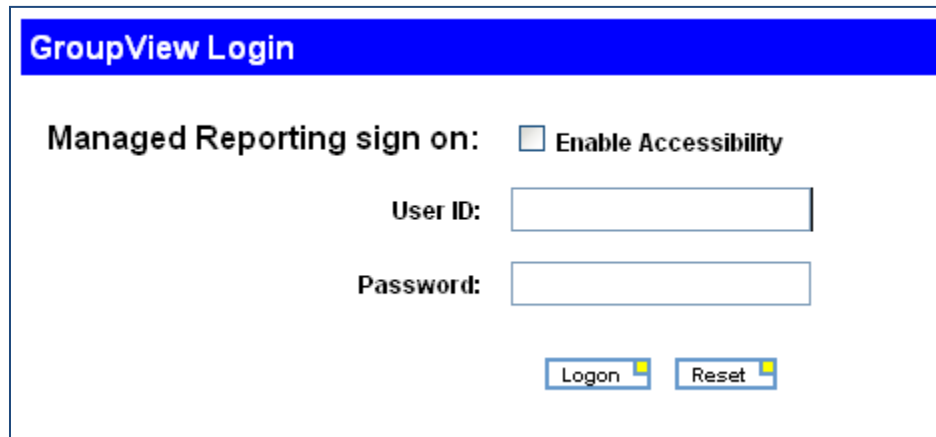

Brief Details

Given access to IIS by aSPIRE (institutional research office), use your internet browser,
1. Go to http://iisweb01/ibi_apps/bid/aa_gbv
2. Enter your network username as the *User ID* (typically firstname.lastname).
3. Enter your college network password as the *Password*.
4. Click *Logon*

Complete Details

1. Go to http://iisweb01/ibi_apps/bid/aa_gbv

2. Enter your network username as the *User ID*. This will typically be firstname.lastname – it's the same username you use to logon to a college computer.

3. Enter your college network password as the *Password*. This is the same password you use to log on to the a college computer.

4. Click *OK* to log in.

If your network login does not allow you access to IIS, please contact the Division Operations Manager for your department for assistance.
